

Keys to Campus Success This Spring

Do the Daily Check. Complete your daily health assessment accurately and honestly prior to your arrival on campus. Note all symptoms, however minor.

Follow your surveillance testing schedule.

Your participation is key, even if you have been vaccinated against COVID-19. Testing dates are listed in your Daily Check portal.

Wear a mask. All Cornell community members, regardless of vaccination status or prior COVID-19 infection, must wear a mask in campus buildings. When outdoors on campus, have a mask available to wear when physical distancing is not feasible.

Stay local. Travel restrictions remain in effect to reduce infection risk. Employees are strongly discouraged from non-essential personal travel.

Keep your distance. Maintain six feet of distance between you and others and avoid crowds. Be mindful of room capacity, as the virus spreads more easily indoors, including shared spaces.
